

PMDC & PowerChina Meeting on Mineral Sector Collaboration

In continuation of the Pakistan–China B2B Conference held in January 2026, Pakistan Mineral Development Corporation (PMDC) convened a meeting with PowerChina International Group Ltd. and PCICL to explore avenues of cooperation in the mineral sector.

The meeting reviewed progress since the signing of the MoU on 28 January 2026 and highlighted opportunities in iron ore, copper, antimony, chromite, gold, PGEs, REEs, pink rock salt, and chemical plant projects.

This engagement reflects the ongoing efforts to strengthen Pakistan–China cooperation in mining and resource development, building on the momentum of the January B2B Conference.
