

PMDC Meets U.S. Embassy Delegation for Engineering Collaboration in Mineral Sector

Pakistan Mineral Development Corporation (PMDC) held a meeting with a delegation from the U.S. Embassy Islamabad, led by Dr. Robert Hall, mining engineering expert from the South Dakota School of Mines & Technology.

The discussion focused on engineering collaboration in the mineral sector, exploring opportunities for knowledge exchange, technical cooperation, and potential joint initiatives. The engagement reflects PMDC's commitment to strengthening international partnerships and advancing sustainable development in Pakistan's mining industry.
